and introduce yourself.  
Looking forward to  
seeing you

*d-Lenolate is a  
broad spectrum  
natural anti-biotic  
without side  
effects.*

## d-Lenolate<sup>®</sup> Skin Treatment Formula

Many of our customers use the Skin Treatment Formula and have reported significant positive results to their skin problems. Our Skin Treatment Formula delivers highly concentrated liquid d-Lenolate, pure concentrated Aloe Vera and M.S.M to clean, smooth and heal the skin. M.S.M. is a naturally-occurring nutrient found in small amounts of many foods. It provides sulfur which is a vital building block of joints, cartilage, skin, hair and nails. Other nutrients included in our Skin Treatment Formula are Vitamin E, Vitamin A, Vitamin C and GotaKola extract which has been used in Eastern medicine for both moderate to severe skin problems. These ingredients are used to stabilize and repair skin tissues. There are no chemical preservatives in this product. All ingredients were selected to be synergistically combined for the protection against any bacterial and viral contamination.

### SUMMER IS UPON US!

Here's a tip; use the Original Cleansing Bar to clean the skin prior to applying the Skin Treatment Formula. Your skin will be clear and healthy. As you expose your skin to the sun, be prepared to have a tube of Skin Treatment Formula on hand for relief from sun-burns. Check out the great sale offered in this newsletter.

## Did you know?

*Those of us at East Park Research thought it would be helpful and fun to share d-Lenolate testimonies of our staff, families and friends. We are family and consider our readers to be the same.*

One customer service representative's mother had a large, quarter-size, mole on the underside of her arm. It looked wart like and caused much discomfort. She applied the Skin Treatment Formula, several times during one week. In a week's time, the mole fell off. To her amazement, it was gone, no more pain and no scar.

One of our dear customer service representatives, of 5 years, has teenage daughters. The youngest daughter experienced an outbreak of acne. She was given two 500 mg d-Lenolate capsules to ingest with water and used the Skin Treatment Formula. To her surprise, there was an immediate change and in one month her skin was totally free from signs of acne. Her skin is beautiful, clear and has no more outbreaks of acne as she continues with the d-Lenolate regimen.

*continued page 2*

Another relative took several doses of d-Lenolate during the day to stop the pain and infection of an abscessed tooth. All swelling and pain subsided within 24 hours.

The elimination of uncontrollable itching, rashes, pain in the joints, swelling of knees and elbows, has been attributed to the use of The Skin Treatment Formula (formerly known as Topical Formula).

**We would like to hear  
how you've found these products helpful.**

## **Little Known Facts:** *d-Lenolate® is safe and works well on animals too!*

Some of our Veterinarian customers have been using d-Lenolate capsules and our Skin Treatment Formula for viral and bacterial infections, with excellent results. *Here are what animal lovers are saying about our d-lenolate products:*

"I recently brought a rescued pit bull from the humane society into my home. Unfortunately, I did not realize that this puppy carried kennel cough. My personal dog quickly caught the virus and soon both dogs were coughing and hacking all day long. I started them on a regimen of 500 mg d-lenolate three times a day and within 2 weeks, their kennel cough cleared up and it never returned."

**-T. Bingham, Las Vegas**

"My beagle-mix dog was diagnosed with splenic tumor, larger than a grapefruit. He also had tooth infections with serious abscesses. I was told to make him comfortable as there could only be a few months left in his life. I immediately put him on a program of 2 capsules of d-lenolate®, 3x daily. After a month, the abscesses and tooth problems were gone. Two years later, he continues to enjoy life while on a smaller maintenance dose of d-lenolate®.

Perhaps the greatest health challenge is that of my mustang. He has had a series of troubles including chronic thrush, ring bone, and could be developing equine cushing's disease. This horse is currently on a regimen of intermittent stall rest and application of the d-lenolate topical (currently know as Skin Treatment formula), as well

as 20 capsules of d-lenolate daily. In just over a month, the thrush has completely disappeared, his previously dull coat is shining again, the mane that had nearly fallen out is growing back remarkably well, and his chronic conjunctivitis has nearly disappeared. The ringbone had even improve considerably by now although it is not supposed to be related to any special pathology. This is a horse that has been through a great deal of abuse, resulting in some harsh wounds. I feel that the d-lenolate is taking care of not only the microbes associated with thrush, but also old or latent infections as well. d-Lenolate seems to be boosting his immune system in such a way that his body is able to function as necessary to heal. Both alternative and standard veterinarian modalities I have used in the past have never produced these kinds of results even on a smaller scale. I want to express my appreciation for your products and the continuous efforts that you are employing in research and development. Thank you."

**-J. English**

## THANK YOU TO ALL OUR CUSTOMERS
